Due however to Bob's frail condition the doctor was afraid to give him the bad news. Instead he gave the sorry job to Bob's Wife of 40 years hoping that she would know how to break the bad news to him ever so slowly and gently.

"Honey" said Bobs wife Eve next morning, I've got good news and bad news; which would you like first.

Bob, always in a morbid state, responds in his usual grumpy voice.

"What do I care?" Just give me the bad news!

Well dear, said Eve cupping Bobs hand with her two hands, I hate to tell you this but it seems like your legs have to come off.

Bob hardly to hold his voice from cracking croaked out

"EVE' what is the good news.
