Committee Meeting Monday 1st February at 1.30pm
Venue Kincumber Neighbourhood Centre

Happy New Year and Welcome

We had 21 Trainers and helpers and committee members enjoy Lunch on the 27th January at Waterford Tukka –Time café. To acknowledge and thank the many trainers helpers, and the committee for their time and support during last year

The new timetable is on the back of this page with a guide on how to book for the new lessons Or to revise the lessons you have completed last year

There was a big shortage of members who have not indicated their request to enrol in the lessons for the New Subject Classes, selected for the first sessions of this year

This will mean several classes will need to be cancelled and re scheduled to a later date, After we have a list of interested members, PUT YOUR NAME ON A LIST, and enrol We do have Trainers waiting to help you

There are New Picasa Classes starting on Wednesday 3rd February at 1pm, which is Full And another series of Picasa classes starting on Monday the 8th at 1pm with some vacancies.

We have purchased some new club Business Cards which we have taken to the Library and KNC and will take some to the other library's and retirement villages ,as well asking our members to help distribute amongst their friends, to help promote the club , we will also advertise in the local papers, and on radio 50+

Our Club Secretary has resigned, so we urgently require another member to fill that important position, and one more member to enable us to have all positions filled on the committee, Volunteers or nominations will be warmly welcomed

If we do not get someone to fill these positions the club could cease to operate, so think about it.

If anyone knows anyone who is interested in becoming a trainer or a helper please let me know. We are particularly looking for people competent in using the Apple/Mac computers. We are always looking for people to help in this area. Our regular people need a break at times so we need people who can take their place. Helping is a good introduction to training .

The guest speaker for the first general meeting on the 4th April at 10.30 am will Syd Fabri And the subject will be Radiology with a PowerPoint presentation

Enjoy your Computing.
David Dunbar
